May

Fri.
US History

What to Know

The Georgia Milestones End of Course (EOC) tests are a state mandated test that counts as 20% of a student's grade. Students currently enrolled in ELC II, Algebra C&C, Biology, or U.S. History will participate. (Students taking U.S. History via AP or Dual Enrollment *do not* take this assessment.)

Students who are not testing will follow the adjusted EOC bell schedule (linked below) **and will still attend their regular classes.**

Logistics:

- Once a student begins a test session, they must complete it during that session. Please review the [testing schedule](#) with your student to ensure they are present for the entire testing period.
- Students attending a school-required function during testing will be excused and scheduled for a make-up session.
- Teachers will share testing locations the week prior to testing.
- Phones and any other personal electronic devices (including Smart Glasses) are not permitted during testing.
- Students must use a **school-issued Chromebook**. Please ensure your student brings a fully charged Chromebook and charger on their testing day.
- Students who normally use a personal device will be provided a school Chromebook for testing.

Off-Campus Programs

- Dual Enrollment students who have an EOC during an EOC scheduled testing block should report to their regular off-campus location. They will be assigned a make-up testing session.
- All other off-campus program students (LCCA, WBL, Early College/Ivester, etc.) are required to report for their scheduled EOC test.
- LCCA and Early College programs will excuse students from their off-campus commitments for testing. WBL students should coordinate with their employers in advance to avoid any conflicts with the testing schedule.
- If a student finishes testing during a time when they would normally be off campus, they should report to the front office until their next FBHS class period.
